RE: Water Quality: Docket No. 58-0102-1401 - Negotiated Rulemaking
Rulemaking to update mixing zone policy.

Dear Ms. Wilson:

The Idaho Mining Association commented on the draft rule published after the first negotiated rule meeting and appreciated the incorporation of several of our suggestions. However, due to the summer season and the press of other activities, our members have not been able to focus on the most recent draft.

We remain extremely concerned about several provisions in the draft rule but will defer the submission of detailed comments until the rule has been published in the Administrative Bulletin.

Sincerely,

Jack Lyman
Executive Vice President
