RE: Airs Facility No. 777-00288, Quality Sand & Gravel, Meridian
Permit by Rule Registration

Dear Ms. Hattan:

On April 4, 2003, the Department of Environmental Quality (Department) received a Permit by Rule (PBR) registration from Quality Sand & Gravel for a nonmetallic mineral processing plant. Quality Sand & Gravel has registered the following information as required by IDAPA 58.01.01.797.02 *Rules for the Control of Air Pollution in Idaho*.

Nordberg cone crusher	Nordberg screen deck
Serial No.: 30310499	Deck Size: 6' x 20'
Manufacture Date: 2002	No. of Decks: 3
Capacity (T/hr): 400	Serial No.: 50823065
	Manufacture Date: 2002

Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The Department recommends that Quality Sand & Gravel maintain this letter, their April 4, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operations.

Please be aware that Quality Sand & Gravel is required to submit a portable equipment relocation form each time the plant, or any registered equipment, is moved to a new site of operations. This form is required to be submitted to DEQ ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience.
