

WaterReuse Association Pacific Northwest Section Meeting

Abstract: The WaterReuse Association's mission is to advance the beneficial and efficient uses of high-quality, locally produced sustainable water sources for the betterment of society and the environment through advocacy, education and outreach, research, and membership. They are focused on sustainable uses of water. This meeting will discuss water reuse activities that are ongoing and developing in the northwest.

Wastewater Professional CEUs are available from Idaho Bureau of Occupational Licensing for this session.

Presenter: Kristina Westbrook

Title: President, WaterReuse Association Pacific Northwest section of the Water Reuse Association Organization.
And Recycled Water Program Manager of King County Wastewater Treatment Division

Address: 201 S. Jackson Street Seattle, WA 98104

Professional Background: Kristina Westbrook is President, WaterReuse Association Pacific Northwest section of the Water Reuse Association Organization. Kristina Westbrook received her Bachelors of Science in Civil Engineering in 1998 from the University of Idaho and received her State of Washington professional engineering license in 2002. She worked 9 years for Brown and Caldwell as a wastewater treatment and water reclamation facility designer and project manager. For the last seven years she has worked for King County, first as a Recycled Water Engineer and now as King County's Recycled Water Program manager developing their recycled water system.
